Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 19 December 2003.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hesler et al. [US 4,002,999] in view of De Graaf [US 6,492,893] and Sylvester, Jr. et al. [US Re33,345].

Hesler et al. discloses a toroidal transformer [figure 2] comprising :

- a gapped toroidal core [11] ; and
- a plurality of coils wound about the core, wherein at least one of the plurality of coils having a center-tapped structure.

Hesler et al. discloses the instant claimed invention except for the specific structure of the toroidal core.

De Graaf discloses a toroidal magnetic core structure [11] having a gap [12] and an insulating layer [15].

It would have been obvious to one having ordinary skill in the art at the time the invention was made to use the core design of De Graaf for the toroidal core of Hesler et al. for the purpose of providing insulation and controlling the magnetic field.

Hesler et al. in view of De Graaf discloses the instant claimed invention except for the specific adhesive tape structure/arrangement.

Art Unit: 2832

Sylvester, Jr. et al. discloses a toroidal transformer [figures 10-16] comprising :

- a toroidal core [abstract] ;
- a plurality of coils [52, 60] wound about the core ; wherein at least one of the coils formed of a bi-filar/tri-filar wire; and
- adhesive insulating tape [65, 68] wound around an outer surface of the core after the plurality of coils are wound around the core, wherein the tape is directly adhered on the first and second coils wound around the core.

It would have been obvious to one having ordinary skill in the art at the time the invention was made to use the insulating tape design of Sylvester, Jr. et al. in Hesler et al., as modified, for the purpose of protecting the core/coil structure.

Regarding claim 3, PVC is a well known insulating material.

Response to Arguments

Applicant's arguments with respect to claims 1-4 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO**

Art Unit: 2832

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
